PROJECTS

Personal Portfolio |

- Utilized HTML, CSS, and JavaScript.
- Created a responsive and visually appealing user interface.

Snake Game |

- Developed a classic Snake game using C++ and SDL2 library as the sole developer.
- Utilized C++ programming language for game logic and SDL2 library for graphics and user input handling.

App Clone |

- Developed a web-based Myntra app clone to gain hands-on experience in web development, design, and user interface.
- Designed and coded a responsive and visually appealing user interface closely resembling the original Myntra app.
- Implemented core features, such as product catalog, search functionality, and user authentication using HTML, CSS, and JavaScript.

Bootstrap Website |

- Developed a responsive e-commerce website using the Bootstrap framework, catering to small business.
- Utilized Bootstrap for front-end development, ensuring a mobile-friendly and visually appealing user interface.
